

Principles and Practice of Securities Regulation in Singapore

Price: S\$150.00

By: Hans Tjio

Discusses the still evolving legal framework for securities regulation and corporate governance in Singapore. It attempts to set the laws and regulations in the context of the history of her capital markets and the political economy of regulation and de-regulation. Given the relative newness of many of the rules, the book draws from legislative and case-law

developments in other jurisdictions such as the United States, Malaysia and Australia.
